SUMMARY

Frontend Engineer with 2 years of professional experience building enterprise web applications, analytics dashboards, and modern e-commerce systems using TypeScript, React, and Next.js. Delivered production UI for national institutions (BPJS Kesehatan, Telkom Indonesia) and international retail, specializing in complex state management, data visualization, and secure API integration.

TECHNICAL SKILLS

Core: TypeScript, JavaScript (ES6+), React, Next.js (App Router), HTML5, CSS3, Tailwind CSS (v3/v4), shadcn/ui
State & Data: TanStack Query, Zustand, Redux Toolkit, React Hook Form, Zod, RESTful APIs, Recharts, TanStack Table
Working Proficiency: Angular, Vue.js, Nuxt, Blazor (C#), Git, GitLab, Vite, Web Locks API, Shopify API

PROFESSIONAL EXPERIENCE

PT Sigma Cipta Caraka (Telkomsigma) — Junior Programmer – Frontend Engineer — Nov 2024 – Oct 2026 | Yogyakarta

- Developed and maintained responsive frontend interfaces across 10 enterprise applications using React, Next.js, Angular, Vue.js, and Nuxt in an Agile Scrum environment.
- Built asset listing and user management modules for **IMAPS (BPJS Kesehatan)** with Angular and REST APIs, while executing cross-platform responsive UI refactoring.
- Initiated scaffolding, folder architecture, and base UI with shadcn/ui for **Alisa 2.0 (Infomedia)** micro-frontend, mentoring two peer junior programmers on project workflow.
- Built internal **Whistleblowing System (Next.js, i18next, REST APIs)** and **MONARA** incident dashboard monitoring 41 seasonal services during Ramadan, Christmas, and New Year command posts.
- Automated tender scraping across LPSE & SIRUP for **Info Tender**, implementing comparative data views and notification dashboards.

Tumbuhin Digital — Frontend Engineer (Freelance) — May 2026 – Jun 2026 | Remote

- Architected **Momiji Home** (github.com/Tumbuhin-Digital/momiji-home-frontend), a B2B wholesale purchasing & interior platform for the US market, with Next.js 16, React 19, and Tailwind v4.
- Implemented token-refresh concurrency mutex on Axios using **Web Locks API** (`navigator.locks.request`), preventing cascading 401 errors.
- Built complex fulfillment logic: multi-warehouse shipping split, 50/50 installment calculation with zero rounding drift, and `@dnd-kit` batch allocation.
- Isolated backend Go DTOs from UI domain entities via Domain Adapter Pattern; integrated Shopify Checkout with anti-popup-blocker flow.

PT Telkom Indonesia — Frontend Engineer Intern — Jan 2023 – Dec 2023 | Remote

- Developed **Netmonk Analytics** (React, Tailwind CSS, Redux) capstone project, monitoring order fulfillment across 5 TREG and 40+ WITEL offices.
- Embedded Metabase analytics dashboards and researched JWT-based embed access security (basis of undergraduate thesis).

SELECTED PROJECTS

HW Trans Fleet (Personal Project) — github.com/hadidwirsty/hiblow-fleet — 2026

- Digitized bulk cement fleet logistics from spreadsheets into an operational web app: real-time trip revenue, fuel/driver expense tracking, and interactive Recharts daily activity comparisons (Next.js App Router, RSC, Tailwind v4, shadcn/ui, Recharts, Zustand).

IS-WARE (Proof-of-Concept) — PT Sigma Cipta Caraka (Client: PT KBI – Danareksa Group) — 2025

- Built warehouse-receipt management PoC in 2 weeks at Telkomsigma with 5-role RBAC; ranked #1 in client technical evaluation (Next.js, shadcn/ui, TanStack Query).

Additional: PIS MARS (Pertamina, Blazor), Caterine (Vue/Pinia), CART (Nuxt/Headless UI), CISS (3 CIS apps maintenance).

EDUCATION & CERTIFICATIONS

Universitas Gadjah Mada (UGM) — B.S. in Computer Science (GPA: 3.74/4.00) — 2020 – 2024

Thesis: Access Security for Embedded Metabase Dashboards using JSON Web Token on Netmonk Web Analytics Prototype.

Certifications: Become a React Web Developer Expert (Dicoding, to 2027), Intermediate Web Front-End Tools (Dicoding), React Essential Training (LinkedIn Learning).
